# iTero integration in RealGUIDE™

# Activating the iTero-RealGUIDE<sup>™</sup> Integration

- 1. In order to get started and incorporating this direct integration, please contact Align support on the website https://www.itero.com/education-and-support/contact-us or via email at: iterosupport@aligntech.com;
- 2. The Align Team will activate the integration for you within 48 hours, post-which you should be able to directly import Itero scans from your Itero cloud account into RealGUIDE.

## Uploading an iTero scan directly into RealGUIDE™

- 1. Please take the patient scan and save it on your iTero cloud account;
- Now you are ready to import scans directly into RealGUIDE for your surgical or restorative design needs;
- 3. Create a new Patient case in RealGUIDE:

4. Add patient information and click "OK":
